BUSINESS

FIELD

Business Matching

We will assist business matching with overseas start-up companies which Japanese enterprises are interested in.

NEXVISION, which has local networks and track records with not only Silicon Valley but also start-up nations such as Germany and Israel, contributes to improve efficiency to approach the targets and to help set up meetings.

Representation

NEXVISION provides representation service in Japan for overseas start-up companies. We manage Japanese subsidiaries and Japanese agencies for overseas start-ups which aim at business development in Japan. As an agent, Nexvision provides open-innovation, cooperation, collaboration, and business co-creation opportunities to the Japanese market.
